

Edmodo: A Student Guide to Getting Started

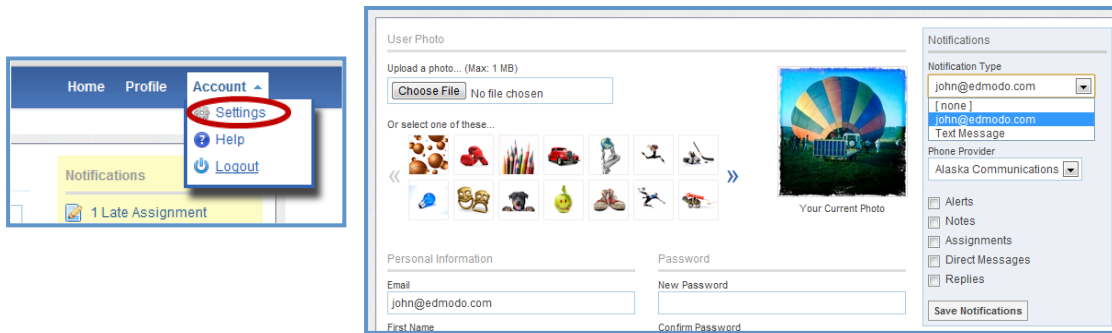

Signing Up

To create an Edmodo account, go to www.edmodo.com, select *I'm a Student* and fill out the sign-up form with the group code provided by your teacher.

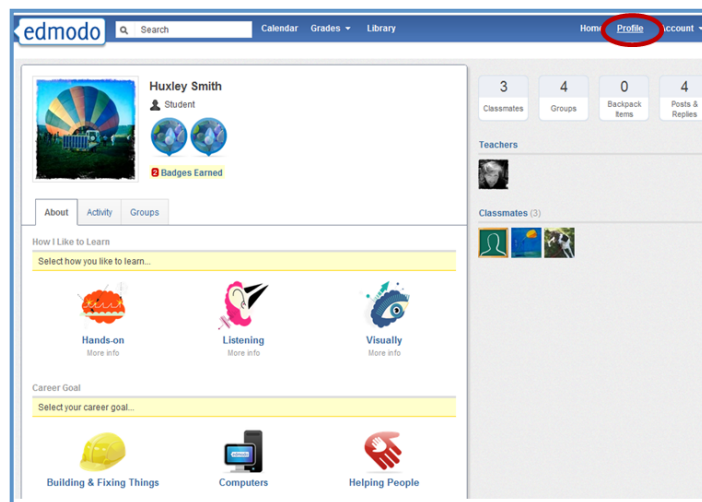

Creating Your Profile and Setting Notifications

- To add a picture to your profile, select *Account > Settings* on the top right corner of your homepage, then select *Choose File* to upload a photo. You can choose from Edmodo provided icons, or upload your own.
- Set your Notifications: From the *Notifications* drop down on the *Settings* page, choose *Text Message* or your email address (if your school allows) to set the method by which you prefer to be notified of new messages, assignments and alerts.

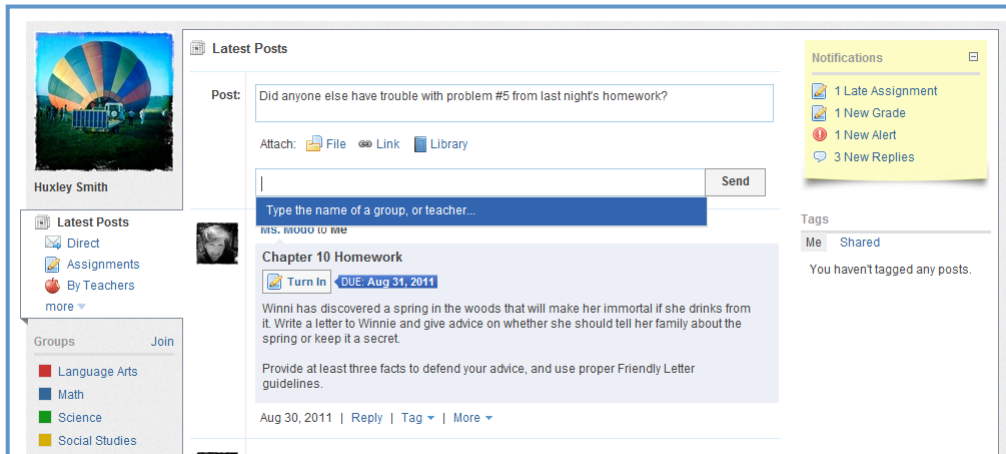

- To add more information about yourself, select *Profile* in the top menu bar, then choose the appropriate tab to select the way you like to learn and your career goal.

Posting Messages

Once you have created an account and joined a group, you can post messages to the entire group or just your teacher. From the post bubble at the top of your Edmodo home page, simply type a message, attach a file or link to a website or video, type the name of the teacher or group you want to send it to, and click *Send*. You can also reply to group posts by selecting the *Reply* button and typing a message.

Assignments

To turn in an assignment posted by a teacher, select the *Turn In* button from within the post, or the Assignment Notification on the right-hand side of your home page. Then simply type a note in the Assignment Window, attach any files or links, and select *Turn in Assignment*.
